

Biosol Prebiotic Hygiene Wash with Honey

sharvinnarajenthiran.blogspot.com/2018/12/biosol-prebiotic-hygiene-wash-with-honey.html

So I was recently sent a new product by Neil Armayan Co. Ltd . It's is the Biosol Prebiotic Feminine Hygiene Wash with Honey 🍯 from Korea. I have started using this product for a few weeks now, and I'm loving it so far.

Biosol is a must for every woman to maintain their intimate hygiene. It's helps keep the intimate areas clean with prebiotic ingredients and helps fight against bad bacteria that causes discharge and infections.

This hygiene wash is also good for other areas with minor cuts or burns. It can be used as liquid soap on the specific areas of the body.

Biosol has 9 main benefits:

- Eliminates vaginal dryness
- Maintains optimum pH of the vagina
- Uplifts and tightens loosen skin/ muscles
- Enhances skin health and conditioning
- Stimulates growth of beneficial bacteria in the inner skin layers
- Contains anti-aging properties and replenish tired skin cells
- Tightens and uplifts vaginal muscles, restores tone and texture
- Provides essential nutrients necessary to moisture and hydrate skin
- Encourages regeneration of epidermis to enhance, soften and recondition skin

This product is made from natural plant extracts like Pueraria Mirifica root extract, honey, and prebiotic Inulin, so its good for the skin as well!

Their market price is **RM 107.80**.

For more info on this product, you can check out the **Neil Armayan social media pages** below.
